

The Dining Pavilion

Our open sided Dining Pavilion with views of the rancho, soft lights, and room for dancing provides an exceptional setting for groups up to 225. Panels of see through side curtains offer protection from wind and rain in case of inclement weather. A near-by gazebo converts into a four-sided bar for the evening.

We consult with you (and your wedding planner) to design an occasion that reflects your special needs. The museum has hosted elegant black and white weddings with flamenco music as well as casual affairs with mariachi music and Northern New Mexican food. We've even had period costume weddings!

Should the occasion require, an adjoining Placita or tent can be brought in to accommodate large corporate parties or wedding receptions with ample parking for your event.
